Welcome to the Sierra Newsletter

We are excited to introduce the first installment of the quarterly Sierra Association electronic newsletter. This newsletter is being implemented in the hope of fostering community engagement and improve board to neighborhood communication.

The newsletter will be shared on the Sierra Website, posted on the closed Sierra Facebook group, and emailed to those that opt-in. With an eye toward our environmental footprint, this newsletter will be electronic only.

Don't miss out – opt in to receive this newsletter via email by sending a request to board@sierraassociation.org. Please spread the word across the neighborhood.

Sierra Pulse

It's hard to believe 2023 is already half over. We hope everyone is having a fantastic summer and getting a chance to relax and enjoy time with family, friends, and neighbors!

Thank you to everyone that made the 1st annual Sierra Easter Egg hunt a success. We packed nearly 1,000 eggs. A Friday night snowstorm tried to derail the event, but thanks to some quick thinking and a snowblower, the event went on as planned. Looking forward to continuing this event into future years.

SAVE THE DATE! The annual Sierra picnic is fast approaching. We look forward to seeing everyone at the park on Thursday July 13th. There will be burgers, hot dogs, chips, cookies, beverages, and some cold treats. Llamas, face painting, bounce house, and yard games will be available for entertainment.

From the Board

Again, the board thanks everyone engaging with us in this newsletter. We truly hope this newsletter creates a dialogue, promotes transparency, and informs the neighborhood of our initiatives.

Mailbox assessments are ongoing. After the normal course of snowplow incidents over the winter and the aging of the mailbox posts, the board is in the beginning stages of a neighborhood-wide mailbox repair agenda.

The board has been engaging with the city regarding Sierra park replacement options. We are in the fact gathering stage but hope to have a Sierra Park townhall this fall. Look for a notice in advance. The park was seal coated in early June and plans are being discussed for other short term repair necessities that will occur this summer.
