Sierra Neighborhood Newsletter
Summer 2025

Summer Update

We hope everyone is enjoying their Wet, Smokey, Destructive Summer. Excuse the poorly executed pun referencing a movie that came out 24 years ago, aging this newsletter author.

But it feels like if it hasn't been hot, raining or storming, we've had hazy smoke from our northern neighbors, which has been about as welcome as the roofing solicitors after that wild tornadic outburst in June. I'd like to thank Canada for giving the Twins front office the idea for their fire sale at the trade deadline.

On the flip side, loving all the lush yards, thriving plants, and flourishing flowers around Sierra. Maybe we need to do a "yard of the week!" Friendly reminder, with all this rain, check your irrigation schedule. We turned off the Sierra irrigation. Let's all do our part for conservation.

Enjoy what's left of the summer and what I hope is a beautiful fall. Its crazy to think we've already reached the "school supply" shopping part of the summer.

Sierra neighborhood street repairs

The city notified us of their "mill and overlay" project this fall, which is a pavement rehabilitation process where the top layer of an existing asphalt pavement is ground off (milled) and then a new layer of asphalt (overlay) is applied. Work will commence for the following streets:

- Campfire Drive East from Starlight to 480 feet south.
- Silver Street from Starlight Drive to Feather Circle.
- Starlight Drive from Campfire Drive East to Silver Street.
- Feather Circle from Silver Street to cul-de-sac.
- Diamond Point from Silver Street to cul-de-sac.

From the Board

1. No neighborhood event this summer and likely no event in the fall as we prioritize savings.
2. The Comcast install has been super frustrating. We will notify the city of our issues.
3. We are repairing mailboxes on a one-by-one basis that have rotted out due to rain.
4. There was a dead tree removed at the park.
5. All plans for fences, sheds, and other exterior improvements require architectural approval prior to construction. Please submit a visual of the design prior to construction and pictures upon completion that acknowledge the final build is in compliance.
